

Enjoy healthy!

## Beetroot ketchup

No compromises were made in preparing Sana Beetroot ketchup – this fantastic flavour could come only from the highest quality ingredients: beets, apples, apple cider vinegar, olive oil, sugar from sugar cane, sea salt and spices.

All the ingredients are completely natural, without any added refined sugars, preservatives or other additives. The result is a fantastic flavour that turns your favourite dishes into a completely new experience.

Beetroot ketchup is highly nutritional, and is chock full of vitamins, minerals and antioxidants, thanks above all to beets, a vegetable known far and wide as a great source of iron. This ketchup is suitable for vegans and is gluten free. Sana Beetroot ketchup is the perfect accompaniment to sandwiches, burgers and your favourite dishes, and it can also be served as a dip.
